2.1 The City hereby recognizes the Union as the exclusive bargaining representative for all employees in the following appropriate unit:

INCLUDED: All full-time Firefighters, Driver/Engineers, Lieutenants, Fire Inspectors, Captain, Assistant Fire Marshal.

ARTICLE 3

3.1 The term of this Agreement shall be three (3) years beginning October 1, 2021 and ending September 30, 2024.

3.3 The Union and the City agree to initiate collective bargaining by July 15th in the final year of the collective bargaining agreement.

ARTICLE 4

MANAGEMENT RIGHTS

4.1 It is the right of the public employer to determine unilaterally the purpose of each of its constituent agencies, set standards of services to be offered to the public, and exercise control and discretion over its organization and operations. It is also the right of the public employer to direct its employees, take disciplinary action for proper cause, and relieve its employees from duty because of lack of work or for other legitimate reasons. However, the exercise of such rights shall not preclude employees or their representatives from raising grievances, should decisions on the above matters have the practical consequence of violating the terms and conditions of any collective bargaining agreement in force or any civil or career service regulation.

ARTICLE 5

GRIEVANCE PROCEDURE

5.1 In a mutual effort to provide a harmonious working relationship between the parties to this contract, it is agreed and understood there shall be a procedure for the resolution of grievances involving the application or interpretation of this Contract and grievances involving discharge, suspension, or disciplinary demotion or terms and conditions of employment as provided by this Contract.

5.2 Every effort will be made by the parties to settle any grievance as expeditiously as possible. Failure to observe the prescribed time limits by either party shall result in the grievance proceeding to the next step of the grievance procedure with a written explanation attached. Any decision not appealed or any grievance settled, other than one settled through binding arbitration shall not constitute a precedent for the interpretation of this contract nor shall it be used as a basis for a future decision.

5.3 Grievances shall be presented in the following manner:

Step 1 The employee shall present the grievance to their immediate supervisor within ten (10) calendar days of the occurrence of the event(s) which gave rise to the grievance. Such contact shall be in writing using the "Official Grievance Form". The grievance form shall specify the exact article which has been violated and the specific remedy requested. A Union Official may accompany an employee through each step of the grievance procedure. The immediate supervisor shall render a recommendation in writing within ten (10) calendar days and provide the written response to the grievant and the Union Official.

Step 2 Any grievance which is not satisfactorily settled with the immediate supervisor shall be signed by a Union Official and forwarded to a Battalion Chief within ten (10) calendar days after the completion of Step 1. The Battalion Chief shall render a recommended decision in writing within ten (10) calendar days (or such longer period as mutually agreed upon) and provide the written response to the grievant and the Union Official.

Step 3 In the event the employee is not satisfied with the disposition of the grievance in Step 2, he/she shall have the option to appeal the disposition to the Fire Chief or his/her designee within ten (10) calendar days after the close of Step 2. The appeal shall contain copies of all previous steps. The Fire Chief or his/her designee shall render his/her decision within ten (10) calendar days of the filing of the appeal (or such longer period as mutually agreed upon) and provide the written response to the grievant and the Union Official.

Step 4 In the event Step 3 does not satisfy the employee, then an appeal may be submitted to the City Manager or his/her designee within ten (10) calendar days after the close of Step 3. The City Manager or his/her designee shall render a decision within twenty (20) calendar days (or such longer period as mutually agreed upon) and provide the written response to the grievant and the Union Official.

5.4 When a grievance is general in nature or is directly between the local union and the department and the City, then the written grievance shall be signed by a Union Official and shall be presented to the Fire Chief or his/her designee within the time limits provided for aggrieved employees or the representative of the local union. Thereafter, the grievance shall be processed in accordance with the procedures in Steps 3 and 4.

5.5 The parties desire to give this collective bargaining contract the maximum force and effect and do hereby agree that this grievance procedure shall be the sole and exclusive method of resolving any dispute concerning interpretation or application of any provision of this contract. In the event a grievance processed through the grievance procedure has not been resolved at Step 4 above, the arbitration procedure set forth in the Arbitration Article shall also apply, if invoked.

5.6 The union will not be required to process grievances for non-union employees.

5.7 Transmission of grievance responses via facsimile requires telephonic notification prior to the transmission, subject to the receiving party agreeing to receive the response via facsimile. The receiving party will not unreasonably withhold agreement to the transmission of the response via facsimile.

5.8 The original submission of a grievance may not be submitted via facsimile and the original grievance form shall continue to be the official grievance, with applicable documentation and original signatures affixed thereon.

5.9 Notwithstanding any section of this Article, either party may request that an independent third party serve in the capacity as a mediator in an effort to assist the parties in resolving the grievance prior to proceeding to arbitration. Both parties to the grievance must concur with proceeding to mediation in order to proceed with the mediation or fact-finding.

OVERTIME PAY

The City and the Union agree to the following:

10.1 In the event that the need for overtime should occur in the Fire Rescue Department overtime shall be paid at the rate of one-and-one-half (1-1/2) times the “regular rate of pay” for hours worked above the one-hundred and forty-four (144) hours worked for that twenty-one (21) day work period. The “regular rate of pay” is defined in accordance with the Fair Labor Standards Act (FLSA) as follows: all remuneration for hours worked by the firefighter divided by the total number of hours worked during the twenty-one (21) day work period. 29 U.S.C 207(a), 29 CFR §778.109 and all other relevant U.S. Department of Labor regulations. In determining the “regular rate of pay” for the overtime calculation, the total remuneration for the twenty-one (21) day work period is determined by: calculating the base hourly rate of pay (as set out in Appendix A) times the hours worked, and then adding all incentive pays (as set out in Article 24) and any State Supplemental Pay for that twenty-one (21) day period. For each twenty-one (21) day work period: incentive pay is determined by calculating annual incentive pay and dividing by 17.38 pay periods per year, and State Supplemental Pay is determined by calculating annual State Supplemental Pay and dividing by 17.38 pay periods per year. 29 CFR §778.0 to §778.603 and 29 CFR §553.1 to §553.233. All hours worked and paid are initially paid at the base hourly rate (as set out in Appendix A). After the end of each twenty-one (21) day work period, when any overtime hours are determined, the additional overtime pay (additional one-half the regular rate of pay) for hours worked over 144 hours in the twenty-one (21) day work period will be paid using the “regular rate of pay” as defined by the FLSA and as set out above.

- a) Paid sick leave used during the twenty-one (21) day work period is the only paid leave that shall not count as hours worked for purposes of calculating overtime, except for the Pilot Period for sick leave detailed below.
- b) A Pilot Period will be effective beginning the first complete twenty-one (21) day work period starting after membership ratification and approval of this Agreement and continuing for approximately one year, specifically for seventeen (17) complete twenty-one (21) day work periods ending in 2023. During the Pilot Period: (i) paid sick leave will count as hours worked for purposes of calculating overtime, and (ii) when an employee receives sick leave pay that employee shall not be permitted to obtain overtime work from the overtime list until after a subsequent twenty-one (21) day work period has started, but that employee is required to work overtime in the twenty-one (21) day work period when they have received sick pay if directed by the Fire Chief or designee. The Pilot Period shall cease upon the conclusion of the seventeen (17) complete twenty-one (21) day work periods, detailed above, in 2023. Sixty (60) to thirty (30) days before the conclusion of the Pilot Period, with the information from the financial and operational impact determined during the Pilot Period, the Parties will engage in negotiations solely regarding the issue of whether paid sick leave should count as hours worked for purposes of calculating overtime for the remainder of the term of this Agreement.

10.2 Overtime is caused when one or more of these three conditions are not met:

- a) All in-service vehicles must be staffed with a company officer or acting company officer from the current promotional list. The Battalion Chief or acting Battalion Chief may also assign other shift members to act as a company officer on a rescue vehicle. There must be two promoted company officers on duty working in the capacity of company officer per shift.
- b) One Driver/Engineer on duty working in that capacity.
- c) One certified paramedic who has passed paramedic preceptorship on each rescue unit.
- d) In the event that a Battalion Chief assigned to a 24-hour shift is on leave AND overtime is required to meet minimum staffing requirements, the vacancy shall be filled.

Except as specified in this article, current overtime assignment practices will continue to the extent that circumstances are the same. If an employee accepts an overtime assignment for less than twelve (12) hours, then he shall not lose his position on the overtime list. He shall still be able to accept another overtime assignment of up to twenty-four (24) hours before moving to the bottom of the overtime list. Employees who were not contacted will not lose their positions on the list.

10.3 Except for mutuals, personnel shall not be scheduled for more than thirty-six hours (or thirty-nine hours) of continuous on-duty status, unless the Fire Chief or his designee specifically approves.

10.4 The Union is responsible for maintaining accurate overtime rosters for: Company Officer, Driver/Engineer, Firefighter, and Fire Inspector, until Telestaff, Executime or other City timekeeping system is operational.

10.5 Overtime assignments will be made on a position for position basis, i.e. the same rank or those on the promotional list or those on the acting list for the rank which caused the need for the overtime. Employees shall work out of title as acting company officer on transport units.

10.6 Non-shift employees shall be compensated at one-and-a-half times their "regular rate of pay" as defined by the FLSA for hours worked (or where paid leave, except sick leave, is granted by the City) in excess of forty (40) hours during the workweek. Paid sick leave shall not count as hours worked for purposes of calculating overtime.

ARTICLE 11

CALL-BACK PAY

11.1 All Fire Rescue Department employees covered by the terms of this Agreement who are called back to work after the completion of their regular shift will receive a minimum of three (3) hours of call-back pay at one and one-half (1-1/2) times their regular rate of pay.

11.2 Reporting to work early or being held over after a work shift e.g. being required to work for a period of time which is outside the normal shift but contiguous to the normal shift, is not a call-back and is not subject to call-back pay. However, an employee will not be entitled to call-back pay if he/she is ordered to work before or after his/her scheduled shift if the employee is already in or at the Fire Station or work location at the time the employee is ordered to work.

11.3 When the Department provides at least seven (7) days advance notice, employees who are scheduled to work outside of a regularly scheduled work shift shall not be entitled to any call-back pay, and will be paid for the hours worked, as appropriate.

11.4 Off-duty employees who are requested to appear by or on behalf of the City for inquiries, investigations, or any other type of meeting as a result of actions taken or observations made while on duty, shall be paid a minimum of three (3) hours at one and one half (1-1/2) times their regular rate of pay, provided that the appropriate chief officer is notified prior to the employee's appearance.

ARTICLE 12

BASIC WORK WEEK

12.1 The normal work week for the term of this contract shall be no more than an average of forty-eight (48) hours.

12.2 Employees regularly scheduled to work a 24-hour shift shall do so, commencing at 0800 hours, with 48 hours of regularly scheduled time off after the completion of each shift. Those serving in the capacity of acting battalion chief may be required to work a schedule commencing at 7:30 a.m.

12.3 The normal work week for personnel not assigned to a forty-eight (48) hour work week shall be forty (40) hours.

12.4 Except for mutuals, personnel shall not be scheduled for more than thirty-six hours (or thirty-nine hours based on operational need) of continuous on-duty status, unless the Fire Chief or his designee specifically approves.

12.5 The City will endeavor to provide as much notice as is reasonably possible prior to implementing a change in shift or a change from shift to a 40-hour work week.
